Summary

Full Stack Developer specializing in building scalable, production-ready web and mobile applications using modern technologies. Experienced in React, Next.js, Node.js, Express, NestJS, React Native, and MongoDB, with several apps and games published on Google Play. Strong focus on clean architecture, seamless frontend-backend integration, AI integration, and delivering high-quality user experiences.

Skills

Frontend Technologies: React, React Native, Next.js, TypeScript, JavaScript, HTML5, CSS3, TailwindCSS, Shadcn/UI

Backend Technologies: Node.js, NestJS, Express, REST APIs, GraphQL

Databases: MongoDB, Supabase

Programming Languages: TypeScript, JavaScript, C++, Python, Java, C#, C

Tools & Others: Git, GitHub, Docker, TanStack Query, JWT Authentication, Google Gemini API

Work Experience

Freelance Software Developer, Self-Employed

February 2026 - Present

Independent Contractor

- Building websites, web applications, and mobile apps for clients, managing each project end-to-end from design to launch.
- Shipped several apps and games published on Google Play, including SymmeTree, LSR 3D, and Athar.
- Next.js, React, React Native, Node.js, TypeScript, MongoDB, Google Gemini API

Remote Software Engineer, Senergic.ch

July 2025 - February 2026

Switzerland-based Company

- Developed scalable, production-ready web applications using Next.js and TypeScript for a Switzerland-based company.
- Contributed to corporate platforms (Zuriauto, PrimaSwiss, LunaSwiss) focusing on performance and UX.
- Next.js, TypeScript, React, TailwindCSS, Git, Docker

Freelance Full Stack Developer, Self-Employed

July 2024 - July 2025

Independent Contractor

- Built custom web and mobile applications using the MERN stack, Next.js, and React Native.
- Delivered end-to-end solutions from requirements to deployment with focus on quality and client satisfaction.
- Managed multiple projects ensuring timely delivery and effective communication throughout development.
- React, Next.js, React Native, Node.js, Express, MongoDB, TypeScript, JavaScript, TailwindCSS

Education

Menofia University

2020 - 2024

B.Sc. in Computer Science

Faculty of Computer Science and Information Technology

Focus: Web technologies, software engineering principles, and full-stack development

Featured Projects

- **Athar – Smart Workspace (Google Play):** AI-powered productivity app combining notes, task management, habit tracking, and an AI assistant that organizes folders, summarizes documents, and drafts emails. Technologies: AI Assistant, Task Management, Notes App, Android.
- **LSR 3D (Google Play):** 3D laser-logic puzzle game featuring color-mixing mechanics, procedurally generated levels, a touch-optimized level editor, and a global community network for custom levels. Technologies: 3D Game, Procedural Generation, Android.
- **Full-Stack E-Commerce Platform:** Production-ready platform with modern storefront, secure backend API, and admin dashboard. Features product variations, JWT authentication, role-based access control, order management, and optimized caching. Technologies: Next.js, React, TypeScript, Node.js, Express, MongoDB, Docker.
- **Patient Management System:** Healthcare application with AI-powered report generation using Google Gemini. Features role-based access control, AI analysis of patient events, automatic clinical report generation, and a dynamic template engine. Technologies: Next.js, Node.js, Express, TypeScript, MongoDB, Google Gemini API.
- **TaskMaster AI:** Intelligent productivity platform with AI-powered task management, habit tracking, and note-taking. Features task dependencies, a Notion-like editor, AI task generation and scheduling, and Telegram bot integration. Technologies: Next.js 15, React 19, Node.js, Express, MongoDB, Google Gemini AI.

Certifications

- **The Ultimate React Course 2024:** React, Next.js, Redux, & More - Udemy, 2025
- **Node.js, Express, MongoDB & More:** The Complete Bootcamp - Udemy, 2025
- **Front-End Web Development with React:** 120 hours - Information Technology Institute (ITI), 2023
